**Re: Provisional Certificate for Approval
 Waste Disposal Site
 No. A181008
 Condition No. 96 - Experimental Wastewater Treatment Pilot Plant Tests**

This letter is further to my e-mail to you of May 6, 2002, enclosing an electronic copy of the Hydromantis Report attached to this letter (although the Appendices were not ready at that time). Please note that the complete report is now available electronically on the City of Hamilton's website (www.city.hamilton.on.ca).

As you are aware, Condition 96 of the Amendment to the above-noted Provisional Certificate for Approval No. A181008, as issued to Philip Services Inc., states as follows:

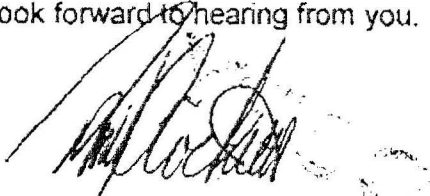

The Company shall not discharge any leachate from the Taro East Landfill Site for the Woodward Avenue Waste Water Treatment Plant WWTP until an evaluation of the impact of the combined Taro West and East Landfill leachates on the Woodward Avenue WWTP through experimental wastewater treatment pilot plant tests together with scans of metals and trace organics removal and accumulation in biosolids, as recommended in the Final Report, Taro East Landfill, Expert Panel, dated October 2000 has been carried out and these pilot plant tests show the discharge of leachate from the Taro West and East Landfill leachate to the Woodward Avenue WWTP is acceptable to the City of Hamilton.

The City of Hamilton retained Hydromantis Inc. ("Hydromantis") to conduct the pilot plant tests set out in Condition No. 96 above. Please find enclosed an originally signed copy of the Hydromantis Report entitled "Biotreatability Study to Assess Impacts of the Combined Taro East and West Landfill Leachate on the Woodward Avenue WWTP" and dated May, 2002. The report recommends in part that "the discharge of TEL (*Taro East Landfill*) leachate through the forcemain from the landfill site to the City of Hamilton's sanitary sewer for ultimate treatment through the Woodward Avenue WWTP be approved. The discharge of leachate from the Taro West and East Landfill to the Woodward Avenue WWTP represents an appropriate treatment and disposal alternative that we recommend be accepted by the City of Hamilton." (words in italics added by way of explanation). These recommendations are acceptable to the City of Hamilton.

For your additional reference, please find enclosed a copy of a Report dated April 29, 2002 from Mr. Garry Palmateer of GAP EnviroMicrobial Services respecting his review of the sampling protocols and laboratory analysis undertaken by Hydromantis and the two laboratories used by Hydromantis during the course of the pilot plant tests.

Kindly advise me in writing upon your office's approval or clearance of all conditions under Provisional Certificate of Approval No. A181008, as amended, relating to the discharge of leachate from the Taro East Landfill Site to the City of Hamilton's sanitary sewer system, including but not limited to Conditions 95 and 96 of the above noted Provisional Certificate of Approval, so that the City of Hamilton is aware of when the leachate forcemain can be used.

I look forward to hearing from you.

You are hereby notified that I have amended Provisional Certificate of Approval No. A181008 issued on September 6, 1996 and as amended for the use and operation of a 59.1 ha (146 acres) landfill site within a total site area of 75.1 ha (185.5 acres), as follows:

The following Conditions are hereby added to Provisional Certificate of Approval No. A181008

98. The Company shall establish a health sub-committee of the C.I.C to address health concerns related to the Taro East Landfill Site. The role of this health sub-committee is to interpret and communicate monitoring results, and review and recommend health protection measures and investigate health concerns related to the operation of the facility. The membership of this health subcommittee shall consist of, but is not necessarily limited to, academic researchers, the local health community and the Company's health risk assessment experts in accordance with Section 8.3.10.2 - Health Committee of the Final Report, Taro East Landfill, Expert Panel, dated October, 2000.
99. Within 6 months of the date of this Notice, the Company shall submit to the Regional Director, for approval, the Terms of Reference of a health study that is to be undertaken with a focus on the community immediately adjacent to the site. The health study should take into account other studies being conducted in the City of Hamilton in order to assess whether there is a difference in the health status of the community living close to the landfill compared with similar populations who are not living beside the site, in accordance with Section 8.3.10.3 - Health Study of the Final Report, Taro East Landfill, Expert Panel, dated October, 2000.
100. The Company shall assess the need for monitoring the landfill leachate for a full scan of organic compounds, including PCB's, furans, and dioxins such as 2,3,7,8 tetrachloro-dibenzo-p-dioxin (2,3,7,8-TCDD). In addition, the Company shall assess the need for monitoring arsenic as part of the groundwater, leachate and surface water monitoring programs. These assessments shall be included in the June 2003 annual report.

101. Within 60 days of the day of this amendment, the Company shall submit to the Director a plan for phased capping of the landfill cells; and immediately upon approval of the plan by the Director, the Company shall implement the plan.
102. The practice of recirculating leachate by spraying at the Taro East Landfill Site shall not be permitted.

The reasons for this amendment to the Certificate of Approval are as follows:

1. Condition 98 is included to ensure that the Company shall comply with the Recommendation made in Section 8.3.10.2 - Health Committee of the Final Report, Taro East Landfill, Expert Panel, dated October, 2000.
2. Condition 99 is included to ensure that the Company shall comply with the Recommendation made in Section 8.3.10.3 - Health Study of the Final Report, Taro East Landfill, Expert Panel, dated October, 2000.
3. Condition 100 is included to ensure that the Company shall comply with the Recommendation in Section 8.3.1.2 of Appendix K, Summary of Leachate Recommendations in the Final Report, Taro East Landfill, Expert Panel, dated October, 2000.
4. Condition 101 is imposed to minimize the impact to the environment by phase capping after the cell has reached its capacity to decrease the amount of the leachate production and/or exposure of particulate matter and landfill gases.
5. Condition 102 is imposed to ensure that the Company shall comply with Recommendation 4 of Section 8.3.4 - Summary of Leachate Recommendations made in the Final Report, Taro East Landfill, Expert Panel, dated October, 2000.

All conditions on the original Certificate of Approval and as amended, which are not affected by this Notice, shall remain in effect.

This Notice shall constitute part of the approval issued under Provisional Certificate of Approval No. A181008 dated September 6, 1996

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the waste disposal site is located;

And the Notice should be signed and dated by the appellant.

You are hereby notified that I have amended Provisional Certificate of Approval No. A181008 issued on September 6, 1996 for a landfill site, as follows:

Condition 103 is hereby added:

103. (a) By September 25, 2002, the Company shall arrange with the Chair of the Environmental Review Tribunal, to appoint a representative from the Tribunal to conduct a public process which includes consultation with the local community, to develop revised Terms of Reference for a CLC. The proposed Terms of Reference shall include:
- (i) A role of a CLC that is in accordance with the environmental assessment document entitled "Taro Aggregates Ltd. Proposed East Quarry Landfill Environmental Assessment" dated January 1995 and supporting documents;
 - (ii) Clearly defined membership and selection criteria;
 - (iii) Consideration of the amount of funding required for the administration of the CLC;
 - (iv) Development of a dispute resolution mechanism for the CLC to solve future concerns; and
 - (v) Development of a process for future amendment of the Terms of Reference.
- (b) If the public process referred to in Condition 103(a) can not be completed by November 15, 2002, then the Company shall submit to the Director, a progress report, which provides details on the progress reached to that date and a schedule for completing the remainder of the public process.
- (c) Within ten (10) days of concluding the public process, the Company shall submit, to the Director, a report written by the representative from the Tribunal which details the results of the public process referred to in Condition 103(a) and any proposed changes to the Certificate of Approval, for his consideration and shall also submit to the Director, for approval, any proposed Terms of Reference.

Stoney Creek City, Regional Municipality Of Hamilton-Wentworth

You are hereby notified that I have amended Provisional Certificate of Approval No. A181008 issued on September 6, 1996, as amended for the use and operation of a 59.1 ha landfill site within a total site area of 75.1 ha., as follows:

104. Approval is hereby granted to allow the use of imported fine-grained soil (Cardi soil), from a borrow pit located about six kilometers south west of the site, near the intersection of Nebo Road and Rymal Road East in Stoney Creek, for the construction of compacted clay liner at the Taro East Landfill.

The reason for this amendment to the Certificate of Approval is as follows:

The source for the approved on-site soil has been depleted. As a result, soil with similar nature and engineering characteristics, has to be brought from an off-site source for the construction of clay liner at the site.

All in accordance with a document by Gartner Lee limited titled "Imported Fine-Grained soil for Construction of Compacted Clay Liner at Taro East landfill", dated August 2002, which shall form part of Schedule "A" of the original Certificate of Approval.

This Notice shall constitute part of the approval issued under Provisional Certificate of Approval No. A181008 dated September 6, 1996, as amended.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;

Regulations require that this number is stated in all notices submitted under the *Corporations Information Act*. This number must be stated in ALL correspondence with the Companies and Personal Property Security Branch.

Initial Return

The *Corporations Information Act* states that every extra-provincial corporation, other than a corporation of a class exempted by the Regulations, that begins to carry on business in Ontario shall file an Initial Return, Form 2, within sixty (60) days after the date the corporation begins to carry on business in Ontario. The Initial Return you have just filed has generated an Ontario Corporation Number and created a file for the public record for your corporation.

Notice of Change

In addition to the Initial Return you have recently filed, you are required to file a Notice of Change for every change in the information within 15 days after the change or changes take place. There is no fee for filing these notices.

Forms

Forms may be obtained from the Ministry at the above noted address or by calling (416) 314-8880, 1-800-361-3223 or TDD (416) 212-1476. Forms are also available on the Ministry's website at www.cbs.gov.on.ca. To access the forms, select the 'Business Information' option at the top of the Ministry's home page.

Business Name

- (a) No corporation shall carry on business in Ontario or identify itself to the public in Ontario by a name other than its corporation name unless the name is first registered. The appropriate registration form may be obtained from the Companies and Personal Property Security Branch or by calling one of the above noted telephone numbers.
- (b) A corporation which has registered and uses a name other than its corporate name is required to set out its corporate name and all registered business names on all contracts, invoices, negotiable instruments and orders for goods or services.

Penalties

Sections 13 and 14 of the *Corporations Information Act* provide penalties for contravening the Act or Regulations.

Section 18(1) of the Act provides that a corporation that is in default of a requirement under this Act to file a notice or that has unpaid fees or penalties is not capable of maintaining a proceeding in a court in Ontario in respect of the business carried on by the corporation except with leave of the court.
